LeetCode

Pf Portfolio

OBJECTIVE

Dedicated Full Stack Developer skilled in React, Node.js, HTML, CSS, JavaScript, problem-solving, and Data Structures and Algorithms. Passionate about building responsive, user-friendly web applications and delivering end-to-end solutions. Eager to contribute to innovative teams and grow through challenging software development opportunities.

SKILLS

Languages :- C/C++ , HTML , CSS , JAVASCRIPT

Technologies :- React.js, Node.js, Express.js, REST APIs, Material UI, Bootstrap

Tool :- Visual Studio Code , Git and GitHub , Figma

PROJECTS

Personal Portfolio | HTML, CSS, JS, Bootstrap

- Designed and developed a responsive personal portfolio showcasing skills, projects, and contact details.
- Emphasized clean layout, smooth navigation, and modern UI/UX.

Weather By City | React

- Built a React weather app with OpenWeather API, featuring city search, unit toggle (°C/°F), and dynamic, condition-based visuals..
- robust UX with loading, empty, and error states, plus input validation and graceful API failure handling..

Banking management system | C++

- Developed a console-based banking management system using Object-Oriented Programming in C++.
- Applied core C++ concepts like classes, constructors, file handling, and encapsulation for a real-world banking simulation.

Simon Say Game | HTML, CSS, JS

- Developed an interactive memory-based Simon Game that challenges users to repeat a sequence of colors with increasing difficulty.
- Implemented game logic using JavaScript, including random sequence generation, user input tracking, and real-time validation.

CERTIFICATION

- NINJA SLAYGROUND 21 days coding challenge by Coding Ninja
Focus on DSA and problem solving
- AU IGNITE(AU FOUNDATION)
Trainee Full Stack Developer
- Prodesk IT Engineering Services
30-day Online Summer Internship in Frontend Development

EDUCATION

Bachelor of Technology (CSE)
Rajasthan Technical University, Kota

CGPA: 7.9 / 10
August 2022 – Present
